I've got you to help me through another day.  
I've got you to make my troubles fade away.  
I've got you and no, no matter what I say,  
I love you and I will do for the rest of my days.

Don't question all the certain things or doubt  
everything else  
'Cause sometimes it's just best to leave your worries on  
the shelf.  
The cookie will crumble, you follow the tide of life.

You're smarter than you think you are.  
One day you will go so far  
And I'll make all of your dreams come true.

I've got you to help me through another day.  
I've got you to make my troubles fade away.  
I've got you and no, no matter what I say,  
I love you and I will do for the rest of my days.

It's too late to hide yourself but why do you run?  
There's no need to be afraid no matter what you've  
done.  
I'll sacrifice it all for you. Do anything you ask me to.  
I'm here so proudly by your side.

I've got you to help me through another day.  
I've got you to make my troubles fade away.  
I've got you and no, no matter what I say,  
I love you and I will do for the rest of my days.

I'm in such a happy place  
When I see that smile upon your beautiful face.  
I know that it's such a happy place  
'Cause in your arms I feel so safe.

I've got you to help me through another day.  
I've got you to make my troubles fade away.  
I've got you and no, no matter what I say,  
I love you and I will do for the rest of my days.

I've got you  
I've got you  
I've got you  
I've got you  
Oh I've got you  
I love you and I will do for the rest of my days.  
I love you and I will do for the rest of my days.
