"So Nice"

This day has just begun
And I feel like somehow I've already won.
Let me tell you why.
I wake up next to you.
I kiss your face and then get on
With the things that I've got to do

Because it feels so nice, it feels so nice,
It feels so nice I'd like to kiss you twice.
Would that be alright with you?
I don't really want to overstep the mark
But I'm gonna stay here with you.

'Cause there's only one like you.
There's only one that makes me feel the way you do.

So take my hand, run away.
Never look back
You know that you will be alright,
Say mmmhmm.
Take my hand, run away.
Don't ever look back
You know that you will be alright.

So we've been here before.
And we've both been waiting on something
A little bit more, more than a smile
That only lasts a while.
I want to see every single one of your teeth
When your lips part for that while
Because it looks so nice, it looks so nice.
Won't you glance in my direction
And give all your loving
And your affection to me, with me.
But let's not move too fast
'Cause I really want this to last.

'Cause there's only one like you.
There's only one that makes me feel the way you do.

So I'll sing this again.

So take my hand, run away.
Never look back
You know that you will be alright,
Say mmmhmm.
Take my hand, run away.
Don't ever look back
You know that you will be alright.

I'm starting to really fall in love with you.
So if I said "forever", my baby,
How would that sound to you?

So take my hand, run away.
Never look back
You know that you will be alright,
Say mmmhmm.
Take my hand, run away.
Don't ever look back
You know that you will be alright.

Take my hand, run away.
Never look back
You know that you will be alright,
Say mmmhmm
Take my hand, run away.
Don't ever look back
You know that you will be alright.
