Hard time living here is out of clear
Times and reasons where you never had
Ain't no shame in starting up right now
Smoke confuses burn that candle down

Stupefy and keep flavor fading out
Then burn that candle down
I saw the night moon rising, and not exactly how
Then burn that candle down

Mister hailing I will slap your wrist
Here's that chance to check me out your list
There's no time for thinking twice right now
Smoke confuses burn that candle down

Stupefy and keep flavor fading out
Then burn that candle down
I saw the night moon rising, and not exactly how
Then burn that candle down
