i thought alot to see her and act like it's was a conindience

mabey she will come bake to me and feel sorry for me

and come bake to my nights

and everyday i dearm of the i will forget her

i can't why? what did she do to me heart

if my eyes see her coming i will forget my soul and go to her

music :

tell her she my life and my days and i never change my words

an if it's about sapertions that's enough sapertion

and now you have to come bake again

and everyday i dearm of the i will forget her

i can't why? what did she do to me heart

if my eyes see her coming i will forget my soul and go to her
