I walked down to the ocean  
After waking from a nightmare.  
No moon no pale reflection.

Black Mirror (2x)

Shot by a security camera  
You can't watch your own image  
And also look yourself in the eye.

Black Mirror (3x)

I know a time is coming  
All words will lose their meaning  
Please show me something that isn't mine  
-But mine is the only kind that I relate to.  
Le miroir casse, The mirror casts mon reflet partout.

Black Mirror (3x)

The black mirror knows no reflection.  
It knows not pride or vanity.  
It cares not about your dreams.  
It cares not for your pyramid schemes.  
Their names are never spoken.  
The curse is never broken (2x)

Un! Deux! Trois! Dis: Miroir Noir! -Black Mirror! (2x)

Mirror, mirror on the wall, Show me where them bombs  
will fall. (2x)

Black Mirror! (3x)
