Where we gonna go  
I'm gassed up, I'm ready to go  
Grab your jacket, Let's hit the road  
We can't wait any longer, Let's go

She's looking out the window  
And her baby starting to show  
From five months ago  
So keep driving, keep driving through the snow

I passed by my folks on side of the road, but I'm  
through it everyone  
We can't let go, You can't let go of the wheel  
And I pass by my friends on either end, But I'm through  
it all of them  
I can't let go, We can't let go of the wheel

Hoping land for miles is nebraska in my eye

And we still crystallize  
Any longer any longer

Trees and power lines are all dressed in the ice  
and we're still crystallize  
Keep moving keep moving through the eye

See the road swallow us whole, and we're still alive ...  
But I cant let go, I cant let go of the wheel  
And water break on a burning wick and douse the  
flame kill her quiver  
We cant let go, We cant let go of eachother  
Shes crying saying it's nobody's fault, shes already a  
pillar of salt  
We're too dissolved, we're too dissolved into the road
