In the middle of the summer  
im not sleeping  
cold wind blowing  
in the middle of the night  
they try to find me but im still driving  
if your going to San Francisco  
lay some flowers on the grave stone  
theres music on the station and im just listening to cold  
wind whistling  
and if they ever find me tell the papers cold wind cold  
wind  
cold cold wind blowing  
cold wind blowing  
Hey hey hey  
something aint right  
something aint right  
and if they ever find me tell the papers cold wind cold  
wind  
cold cold wind blowing cold wind blowing cold wind  
blowing  
cold wind blowing cold wind blowing
