You light me up  
You bring the crowd  
I think about this  
Every time the stars come out

You light me up  
You chase the clouds  
I think about this  
Every time the stars come out

Every time the stars come out  
Every time the stars come out  
Every time the stars come out  
Every time the stars come out

Every time the stars come

You light me up  
You bring the crowd  
I think about this  
Every time the stars come out

You light me up  
You chase the clouds  
I think about this  
Every time the stars come out

Every time the stars come out  
Every time the stars come out  
Every time the stars come out  
Every time the stars come out

Every time the stars come

You light me up  
Every time the stars come  
You bring the crowd

Every time the stars come  
You light me up  
Every time the stars come  
You chase the clouds  
Every time the stars come

Every time the stars come out  
Every time the stars come out  
Every time the stars come out  
Every time the stars come out
