Chorus:

"Take my empty body and discover me, infinity
Forgive me endless longing so it's crazy you and crazy
me
Take my empty body and discover me, infinity
Forgive me endless longing so it's crazy you and crazy
me"

Cuz on the real, I'm thankful you down
Just thankful you down

Verse 1:

She is outta my league - I'm outta my mind
Get me outta this dream - outta this high
Take you to flight school - teach me to fly
We was buggin in high school - tryin to be fly
If love is a sure thing - then why do we shy
Away
Hey, if you sellin' - I'm willing to buy
I'm thinkin' shy - you could've been with a lot of these
guys
But you didn't - ambitious - had different interests,
Wants to be a gymnasts - supported by her parents and
Saving herself for marriage cuz she's - Daddy's little
princess
Pretentious - only thing I can be and if you don't see the
pressure
Together - we learned it first - it only hurts forever
And ever - before the songs and the interludes,
When life gives you lemons - then pick a different fruit
As long as I'm livin' - I'm giving into you - shy and
As long as you listen - this'll be livin proof

Chorus:

"Take my empty body and discover me, infinity
Forgive me endless longing so it's crazy you and crazy
me
Take my empty body and discover me, infinity

Forgive me endless longing so it's crazy you and crazy me"

No matter how this ends 'Â€" on the real
I'm just thankful you down
I'm just thankful you down (down down)
Cuz on the real I'm just thankful you down
I'm just thankful you down
(Repeated)

Verse 2:

She is outta my league - I'm outta my mind
So I sell her a dream - tell her a lie
Hell - if she ever get love letters - they better be mine
Whatever - love her complexion, ebony eyes
Too high - to ever understand why we argue or fight
Cuz you'll never be wrong - I'll never be right
We grow apart - I cross my heart and I'm hopin' to die
Open - I'm knowin' it's like - I'm too fuckin emotional
Man up - and stand up - for everything you stand for
Why I wouldn't be standin' alone 'Â€" that's whatchu
here for
Never in the way - you play ya role
So I could never knock you - I tell her
You said forever and I said - I gotchu - yea
Before the songs and the interludes 'Â€"
Cuz when life gives you lemons you pick a different
fruit
No matter who's in it - this'll be difficult
Yea, but it's dope that you see that you make a
difference too

Chorus:

"Take my empty body and discover me, infinity
Forgive me endless longing so it's crazy you and crazy
me
Take my empty body and discover me, infinity
Forgive me endless longing so it's crazy you and crazy
me"

No matter how this ends 'Â€" on the real
I'm just thankful you down
I'm just thankful you down (down down)
Cuz on the real I'm just thankful you down
I'm just thankful you down
(Repeated)
