We didn't know
What love was 'til He came
And He gave love a face
And He gave love a name
And He gave love away
Like the sky gives the rain and the sun

We were looking for heroes
He came looking for the lost
We were searching for glory
And He showed us a cross
Now we know what love is
'Cause He loves us

The way to kingdom come
All the way
The way to kingdom come

Love is a miracle
It's a miracle if you can find it
Miracles are hard to come by
These days, these days

But the sweet Lord Jesus
He's a miracle man
He's got holes in His feet
In His side, in His hands
And if you ask for love
Love pours through them
Like a ray of light, like a raging blaze

We didn't know
What love was 'til He came
And He gave love a face
And He gave love a name
And He gave love away
Like the sky gives the rain and the sun

We were looking for heroes
He came looking for the lost
We're searching for glory
And He showed us a cross

Now we know what love is
'Cause He loves us

The way to kingdom come
All the way
The way to kingdom come

Life is a mystery
It's a mystery, that we're all live in
This world is so fragile
And we're so frail, so frail

Yeah, with the sweet Lord Jesus
His mysterious heart
Keeps the life-blood pumping
At the center of it all
If He let go of us, we'd all blow apart
But He holds on tight, His love don't fail

We didn't know what love was

We didn't know
What love was 'til He came
And He gave love a face
And He gave love a name
And He gave love away
Like the sky gives the rain and the sun

We were looking for heroes
He came looking for the lost
We were searching for glory
And He showed us a cross
Now we know what love is
'Cause He loves us

The way to kingdom come
All the way
The way to kingdom come
All the way, all the way
The way to kingdom come
