boys and girls by Jan Rot  
loneliness, emptiness, mama,  
that's my life, I didn't know which way to choose  
but she knew she left me  
coming home, my work is over,  
what can I expect, the coffe is cold there is no food  
too late to watch t.v.  
boys and girls have each other, boys and girls hand in  
hand  
boys and girls have each other, stand by me 'cause I'm  
alone  
I'm lying in my bed, I don't sleep but I cry,  
you never miss your girlfriend  
untill she says goodbye
