I just got a letter
oh
that I've been wishin' and waitin' for
just a little letter
ah
but it's the key to a magic door
gee
I'm really diggin' what goes now
how the crazy universe glows now.
Liste - listen.

She's comin' back.
Hallelujah
hurray.
I'll hold her
I may hold her to my heart.
Na
na
na...

She's comin' back
it's the news of the day
and from now on we'll never
never part.
Na
na
na...

So we had a break-up
none of us was willing to give or bend.
Now we're gonna make up.
I can see us into that happy end.
Oh
I feel a million vibrations.
Gettin' set for great celebrations.
Listen - listen.
