Early morning sunshine
Pushing soft against my hair
Wondrin' what you're doin'
Thinking what you're gonna wear
Happy kind of sad
I'm on my way
To start the day

[Chorus:]

Morning noon and nighttime I still think of you
Morning noon and nighttime wanna be with you
Morning noon and nighttime you are always on my
mind

Sippin' at my coffee
In the middle of the day
Wondering what you're doing
Wondering why you went away
Happy kind of sad
I'm on my way
To start the day

[Chorus:]

Morning noon and nighttime I still think of you
Morning noon and nighttime wanna be with you
Morning noon and nighttime you are always on my
mind

I can only dream if I can dream right here with you
I can only smile if I can be right here with you
I can only live if I can live right here with you
In your arms

Early morning sunshine
Pushing soft against my hair
Wondering what you're doing
Thinking what you're gonna wear
Happy kind of sad
I'm on my way
To start the day...
