The sun's goin' down
I'm goin back to my cave
I've got no one to meet
No one to save

I like the music
In my head
I think I'll go away
For her instead, yeah

I draw a circle in the sand
Draw a circle in the sand
Draw a circle in the...yeah

Soft sweet devil lights my way...yeah

It's time to go home
Rise like an animal balloon
Peers over Jerusalem
I can't fall too soon

And the angels picked me up
And called my name
She's sweet charity
But peace is power, and money, and fame

Well I draw a circle in the sand
Draw a circle in the sand
I draw a circle in the...yeah

Soft sweet devil to light my way
Oh a soft sweet devil to light my way

It's time to move on, to dream the dreams of the
hungry
To cast a spell to the homeless, barefoot and poor
Where nobody bothers you, your anybody's friend
Draw a circle in the sand, everybody wants sand
