Jolie, Jolie, pretty little thing
Berce moi toute la nuit
All I want you to do is just be happy

And we went on a walk and we went on a hill
And come back up again, you know I will
Just to bring you the mail, to me it's just another hill

Jolie, Jolie
Berce moi, prend sur toi toute la nuit
All I want you to do is just be happy, be happy

Do you want me to fly to Heaven's gate?
[Incomprehensible] I won't wait
I'll go right away 'cause to me it's just another day

Jolie, Jolie
Berce moi, prend sur toi toute la nuit
All I want you to do is just be happy, even happier than
that

Do you want me to stop every time I start?
When I kiss your lips and you break my heart
But I do this to me it's just a little kiss

It's just a little kiss
Stay right there on the "A"
Yeah baby, stay there
Oh Daddy, you can only do the best you can
I just want you to be happy
