I need to know
Need to know
Need to know
Will you catch me when I fall
When I fall

I need to know
Need to know
Need to know
Will you be there through it all
Be my sunshine through the fall

It's kinda crazy 'cause lately
I can't seem to get these thoughts out my mind
I know that I want you, that I need you
Gotta be willing to put in the time

This ain't a game
'Cause we both gotta live through it
So can you be there to hold me
When we're going through it
I need to know in your heart that you're down to do it
Not trying to put me through it

I'm so cautious when it comes to love
Gotta be careful when I give my heart
I know together we can both rule the world
But I gotta know from the start

I need to know
Need to know
Need to know
Will you catch me when I fall
When I fall

I need to know
Need to know
Need to know
Will you be there through it all
Be my sunshine through the fall

I deserve a lot
And I need a lot
But I'm gonna do the same for you
If you're willing to stand up for me
And you're there for me
Then I'm gonna be down for you

This ain't a game
'Cause we both gotta live through it
So can you be there to hold me
When we're going through it
I need to know in your heart that you're down to do it
Not trying to put me through it

I'm so cautious when it comes to love
Gotta be careful when I give my heart
I know together we can both rule the world
But I gotta know

I need to know
Need to know
Need to know
Will you catch me when I fall
When I fall

I need to know
Need to know
Need to know
Will you be there through it all
Be my sunshine through the fall
