(Cassidy Stockton Diggs)

You say you've heard this all before
And you can't take the lies anymore
But baby before you walk out the door
I won't make you cry, make you cry anymore(Chorus)
What I'm right, what I'm really gonna love you all my
life
What if a brand new me is standing here tonight
Would you take my hand and give me one more
chance
What if you're wrong
Baby this ain't just the same ole sad love song
And I just wanna hold you all night long
Oh baby, what if I'm right and you're wrong
My jealousy is no longer
This time I'm much stronger
Then the man I used to be
Don't turn your back on me
I just wanna kiss your face
I swear I've changed my ways
Oh baby, please please stay
(Chorus)
What I'm right, what I'm really gonna love you all my
life
What if a brand new me is standing here tonight
Would you take my hand and give me one more
chance
What if you're wrong
Baby this ain't just the same ole sad love song
And I just wanna hold you all night long
Oh baby, what if I'm right and you're wrong
Oh baby please be wrong
