Where do all the lonely people go?  
Friends they thought they knew don't want to know  
Try to find a place to hide as they're falling to their  
knees  
Someone, Catch them, please

Everybody Hurts Everybody Aches  
Everybody Falls Everybody Breaks  
Just Breathe, Let it out and, Breathe  
Everybody Cuts Everybody Bleeds  
Every hidden scar is justified  
So Breathe, let it out and, Breathe, just Breathe

Can you feel the circus in your head?  
Don't you know you're easily misled  
Stand up if you give a damn, it's slowly killing you  
Don't you, feel it, too?

Everybody Hurts Everybody Aches  
Everybody Falls Everybody Breaks  
Just Breathe, Let it out and, Breathe  
Everybody Cuts Everybody Bleeds  
Every hidden scar is justified  
So Breathe, let it out and, Breathe, just Breathe

So where do all the lonely people go?  
Stand up if you give a damn (if you give a damn)

Everybody Hurts Everybody Aches  
Everybody Falls Everybody Breaks  
Just Breathe, Let it out and, Breathe  
Everybody Cuts Everybody Bleeds  
Every hidden scar is justified  
So Breathe, let it out and, Breathe, just Breathe .
