(J. Boylan)

Little girl what's that look clouding over your eyes
Little girl what's all this about life tryin' to pass you by
Yes, I'll listen and try to be kind
But remember I'm only a thought in your mind.

And I'm a dream weaver
A love receiver and I get around
Yes, I'm a dreamweaver
A word deceiver look up and down
Dream weaver's comin' to town.

Little girl I could tell you the places I've been
But my words are just whispers that lean on the wind
You must listen and try to believe
And I'll geive you a dream I've been meanin' to weave.

For I'm a dream weaver
A love receiver and I get around
Yes, I'm a dream weaver
A word deceiver look up and down
The dreamweaver's comin' to town.

I could love you, if you want me to
That won't be what it seems
Yes, I could love you, if you want me to
Then again I'm just a weaver of dreams.

And I'm a dream weaver
A love receiver and I get around
I'm a dream weaver
A love receiver comin' to town.

Yes, I'm a dream weaver
A love receiver and I get around
Well, I'm a dream weaver
A love receiver comin' to town...
