(Dorsey Burnette - Joe Osborn)

Everytime I see you smiling
I see your love's so real
And everytime I see you smiling
Words can't explain the way I feel.

You made me king with the fortune
And told me that I can rule the world
It would take one thing more to make me happy
That would be your love little girl.

--- Instrumental ---

Everytime I see you smiling
I see your love's so real
And everytime I see you smiling
Words can't explain the way I feel.

You made me king with the fortune
And told me that I can rule the world
It would take one thing more to make me happy
That would be your love little girl...
