Excuse me baby, but you're looking mighty fine  
Excuse me baby, if I'm talkin' out of line  
Well the way you talk and the way you twist around  
You've got me lookin' and I just can't make a sound  
Excuse me baby, but you're lookin' good to me.

Hey hey sweet thing, I don't your name  
I love you pretty baby, I hope you feel the same  
When the righttime comes and I want you around  
Well come on baby, don't you dare let me down.

Excuse me baby, turn those pretty eyes my way  
Yeah if I could hold you honey, I'd mould you in my  
arms like clay  
I'd never ever let you out of my sight  
Come mornin', noon, evenin', daylight or night.

Excuse me baby, that's how I'm feelin', wrong or right..
