Love is where you find it
On the city streets, wherever people meet, anywhere
you go
When you find it you will know, woh, woh.

Love is where you find it
In a dim cafe, a secret hideaway, it can come to you
And it's just a step away, woh, woh.

And you know when you find it
Your heart will tell you that it's so, woh
And you know when you find it
That you'll never let her go.

Walkin' in the rain, love can find you
Life won't be the same, when it finds you
And when it's had it's start
You'll never want to be apart.

Love is where you find it
Maybe not today, but love will find a way, if you want it
to
Love will come to you, woh, woh.

And you know when you find it
Your heart will tell you that it's so, woh
And you know when you find it
That you'll never let her go.

Love is where you find it
Maybe not today, but love will find a way, if you want it
to
Love will come to you, woh, woh...
