(D. Burnette)

I wanna walk with ya, talk with ya, all about love
'Cause there's no greater time than tonight
When I get you under the stars above
Put your lips to mine with your kiss of fire, woah yeah
Just to be with you baby tonight is my one desire.

I want a date with ya, would be great with ya baby
tonight
When I get you in my arms tonight
Everything's gonna turn out right
Put your lips to mine with your kiss of fire, woah yeah
Just to be with you baby tonight is my one desire.

All the times I've wasted baby, be my steady date
I wanna make up for lost time tonight and I just can't
wait
Put your lips to mine with your kiss of fire, woah yeah
Just to be with you baby tonight is my one desire.

All the times I've wasted baby, be my steady date
I wanna make up for lost time tonight and I just can't
wait
Put your lips to mine with your kiss of fire, woah yeah
Just to be with you baby tonight is my one desire

Just to be with you baby tonight is my one desire.
Just to be with you baby tonight is my one desire...
