Hey girl do you have time  
Can we sneak off somewhere and have a talk  
Cause I've got things to get off my chest  
Something's you may not have heard yet, Oh Baby  
You would be the only love that I need  
You would be the last breath that I breathe  
You would be the words I read that say to me  
We're ment to be  
So how could he possibly not see  
How beautiful U R  
How does he miss the things so special to me  
He'll never be the thing that I am naturally  
How could he touch your face and never really see  
How beautiful U R  
I know you've got someone  
But he don't understand what your heart needs  
He is so irresponsible it's incredible that he's not on his  
knees  
Asking you to be, so I'm going to say it  
You would be the only love that I need  
You would be the last breath that I breathe  
You would be the words I read that say to me  
We're ment to be  
So how could he possibly not see  
How beautiful U R  
Girl I know just how to make you feel good  
I'm going to have to take control  
It's so much more then sexual  
Cause girl your so beautiful  
So beautiful U R  
How does he miss the things so special to me  
He'll never be the thing that I am naturally  
How could he touch your face and never really see  
How beautiful U R
