

Rick Springfield **"American Girls"**

Visit "[American Girls](#)" on MotoLyrics.com

You can see her walking down on the city street, the
American girl
She's got the passion in her eyes, she's got the blush
on her cheeks
The American girl
I love to watch her move, her body sways
She whispers, then she laughs, did you hear what she
said
I wanna know if she's talkin' 'bout me, doing things her
daddy can't see
Chorus:
The American girl, out in the dark, she's looking for
love, oh oh
The American girl, she breaks hearts, but that's not
enough
She's such a mystery to me
Love is full of intriguein', full of vulgar mystique, the
American girl
She's got the promise in the night, the romance in the
back seat
The American girl
I love to watch her move, her body sways
She whispers, then she laughs, did you hear what she
says
I wanna know if she's talkin' 'bout me, doing things her
daddy can't see
chorus
And she stares of herself in the harsh white light
And she draws in her cheeks just like a model
So unsure of herself in the big wide world, the
American girl
chorus repeats out
