Bess:

Baby I'm sad
I feel you inside every time
I breathe
When I kissed your mouth
You made me feel strong.
You were my life from that first kiss
I knew you better than I knew myself
But I thought we had Forever, baby
I'd always be the one you needed
Goodbyes came to fast
Precious moments last
You were the only one
The one who could have made it
Last Forever

Houdini:

Baby I miss you too
I spent my life trying
to capture a dream
When I touched your face
I burned with desire
Though our souls are worlds apart
You're living in my heart

Both:

But I thought we had Forever, baby
I'd always be the one you needed
Goodbyes came to fast
Precious moments last
You were the only one
The one who could have made it
Last Forever

Interlude - Scene: The Escapes

Both:

But I thought we had Forever, baby
I'd always be the one you needed
Goodbyes came to fast
Precious moments last
You were the only one
The one who could have made it
Last Forever

Bess:
My heart beats to the memory of you

Both:
Love is the only thing that's true
But I thought we had Forever, baby
I'd always be the one you needed
Goodbyes came to fast
Precious moments last
You were the only one
The one who could have made it
Last Forever
Together we will make it last Forever
Together we will make it last Forever
