Hey look what you've done  
Ain't cha ever going to help me  
Cause now your love's the only one  
I tried so hard to break it

Now that I'm loving you  
1200 miles is a long long way  
And my loves gonna grow  
Every inch of the way

But I didn't mean to love you  
I only meant to see  
How far you'd go  
And I didn't mean to love you  
I tried to leave ya  
And my heart said no  
Oh no

Hey what can I say  
You know I didn't mean to fall for you

Show me, show me, show me  
What can I do  
I don't even know  
If your love is true

But I know this  
No matter how much I want to try  
I'll never stop loving you  
I need you  
Though you're just 17  
And my loves gonna grow every night every day

But I didn't mean to love you  
I only meant to see  
How far you'd go  
And I didn't mean to love you  
I tried to leave ya  
And my heart said no  
Oh no
