Another lesson learned  
Wrapped around my soul  
Another journey ends  
Another story told  
Innocents, forever burns  
A light in the window  
Until your dreams return  
Let It Shine  
Shine on you  
Cause you got the power  
To make it come true  
Let It Shine  
Shine on me  
I need you to help me  
Gotta help me believe  
Now the magic's here  
Like the moon and stars  
Imagination comes  
No matter who you are  
You are free  
Free to believe  
In the light in the window  
In the power of your dreams  
Let It Shine  
Shine on me  
You got the power  
Power to make it come true  
Let It Shine  
Shine on me  
I need you to help me  
You gotta help me believe  
Let It Shine  
Shine on me  
Cause you got the power  
To make it come true  
So Let It Shine  
Shine on me  
Need you to help me  
You gotta help me believe  
In the world
