Laa, laa, see the morning sunshine shine
Shine on the mountain side
Don't think the grass is always greener
On the other side

There was a time I felt like you
Did not know what to do
Don't worry now, you'll be alright
You're alright, I see, see

Laa, laa, see the morning sunshine shine
Shine on the mountain side
Don't think the grass is always greener
On the other side

Oh, I know how you feel
If you really do
Don't worry now, you'll be alright
Hold on tight, you'll see, see

Laa, laa, see the morning sunshine shine
Shine on the mountain side
Don't think the grass is always greener
On the other side, on the other side

Laa, laa, see the morning sunshine shine
Shine on the mountain side
Don't think the grass is always greener
On the other side, on the other side
