I see you standing out there in the hall  
You seem so nervous waiting for his call  
I focus on you  
I reach for the lens  
The shutter snaps again

(Smile)  
Smile For The Camera  
You know  
(smile)  
the Camera never ever lies  
I've been watching you with  
eager hungry eyes  
For sometime  
(Smile)

I hold my lens in the middle of the night  
Visions of you dancing in the strobe light  
Up on my wall is a picture or two  
of someone who looks like you

(Smile)  
Smile For The Camera  
You know  
(Smile)  
The camera is my wide lens  
(Smile)  
You know the camera is my private eye  
I got color transparencies  
I got black and white  
(Smile)  
Smile For The Camera  
You know that  
(Smile)  
Cameras never ever lies  
(Smile)  
I've been watching you with telephoto eyes  
for some time

(Smile)  
Smile for me  
(Come on)

Smile for me  
(Come on)  
Smile for me  
(Come on)  
Smile for me  
(Come on)  
Smile for me  
(Come on)  
Smile for me  
(Come On)

(Smile)  
Won't you Smile For The Camera  
Won't you smile for the  
click, click, click
