Streaking

Do we do on a lonely campus night
TV's a drag and they're turning off the city lights
I remember the days of the party raids
And sitting on combs was a silly craze
We got a new one
And it's called

Streaking the old Australian Way

Streaking

We're bringing back the age

Streaking

The old Australian Way

Streaking

It's not what you call your regular high school course
It's a little like lady godiva without the horse
You just need a crowd and some confidence
There's nothing special to wear so there's no expense

Everybody can do it

So let's go streaking

The old Australian Way

We're bringing back the age

Streaking

The old Australian Way

Me and my lady are going to get away
Then go streaking night and day
We felt for awhile there was nothing new to try
You don't have to smoke it but it still gets you high
You just need a MG to get away
And maybe a nice warm sunny day

Anybody can do it

So let's go streaking the old Australian Way

We're bringing back the age

Streaking
