My friends think I'm crazy that I'm working too hard
But they don't see these memories that haunt me in the
dark

Since you went and left me since you broke my heart
Baby I ain't playing with a full deck of cards

Chorus:

The lights are on but there's nobody home
The heartaches are here but the love is all gone
I'm out of my mind I'm no longer in charge
I'm no longer playing with a full deck of cards

I should have seen it coming but it caught me off guard
That joker came and ran off with my queen of hearts
I'm playing solitaire now and the cards are all marked
Tonight I ain't playing with a full deck of cards

2nd Chorus:

The lights are on but there's nobody home
The heartaches are here but the love is all gone
You're out of my life but you're still in my heart
Tonight I ain't playing with a full deck of cards

Repeat 2nd Chorus:

Tonight I ain't playing with a full deck of cards
