Way down in the June  
... of sugar came  
... hand  
In a roads of a different name

When the first time I feel...  
I was standing in the...  
When the... and the... jail  
In the rose of a different name

Chorus:  
... the table made the first...  
Second time... my own  
...  
I believe that... goes around

Com'on!

When the devil made that...  
... away  
She was... with the... me  
... everyday  
Way down deep dirty  
I cross the double side the...  
I call the paint... with the bottle gin  
With the rose of a different name

Because the devil made the... first time  
Second time... my own  
...  
Believe... goes alone

[2x Chorus:]
