I told my...  
Shoot my... from the floor  
You wished you was sleeping  
As I stood at the door  
Once more is here  
God only knows where  
That's what it hit me  
I was already there

Chorus:  
I... thousand miles and more  
Never find a... I've seen you arise me for  
Give me the freedom to go my whole way  
But she gave me much more  
You gave me the freedom to stay

Walk it on room  
You're too... wish on star  
Searching for heaven  
Well I know where you are  
Laugh is just empty when you walk alone  
So river where going girl  
Lord is good to be hold

Chorus:  
I... thousand miles and more  
Never find a... I've seen you arise me for  
Give me the freedom to go my whole way  
But she gave me much more  
You gave me the freedom to stay
