You thought that you would take me  
Once you thought that I was too drunk to resist  
But I'll resist  
I promise this

You exhibit just to what extent a whore can actually be  
useless  
It's hard for me to believe that you love the boy you're  
with

Every moment brings your lips closer to his  
His affirmation of rejection of your kiss will devastate  
I promise this

You make me sick; I shall retire and vomit to my heart's  
content  
Try to erase your name from my head, for I hate the  
sound of it

Your makeup is on my sleeves; I need to wash that shit  
before I leave  
I wouldn't want people to know with whom last night you  
tried to sleep

Your terrible taste lingers about  
But when I try to wash it out, I'm reminded of the way it  
felt

You know I hate liars and actresses

My hands are falling apart now  
I blow the smoke out from my mouth  
Awaiting your arrival, I'm wondering if I am guilty  
Of what could be considered an unintended,  
underhanded seduction

Accusing you- it fills a need  
Placates addictions I must feed  
I can't let all these people know with whom last night  
you slept, was me
