Baby girl you take my breath whenever you stand close to me,
i feel like there's nothing left when you're holding me baby dont let me
go hold me tight and close to your heart cant let you leave,
cuz i wont be able to breathe i suffocate when ur away from me
thats why when we make love you're always clinched to me,
just sexin so wet and not even sweat can get thru me
should i take my breath cant breathe my lungs are gettin tighter,
thats only when she ride or im inside or stand beside her

Cause I cant breathe when you talk to me,
I Cant breathe when your touching me
I Suffocate when your away from me
So much love you take from me
Im going out of my mind

I cant breathe when you talk to me,
I Cant breathe when your touching me
I Suffocate when your away from me
So much love you take from me
Im going out of my mind

Now even though I try to play it off.
Im thinking bout you all day long and
I cant wait for shorty to come through
From your lips and back up to your eyes
my hands on your hips when we grind im fantazing
Bout what im gon do to you.
You got me fiending for her love (can't lie)
Man you should see how she got me
Spending all this time with her (with her)
And I couldnt leave her if I wanted to her love has turn men into fools
Tell me what a man is to do.

Cause I cant breathe when you talk to me,
I Cant breathe when your touching me

I Suffocate when your away from me
So much love you take from me
Im going out of my mind

I cant breathe when you talk to me,
I Cant breathe when your touching me
I Suffocate when your away from me
So much love you take from me
Im going out of my mind

Whenever we up in this bed and my fingers all in your hair,
I Wonder if you feel me watching you
Cause I can't go a night without your lovin
Got me lookin at this phone
Everytime it rings I hope its you (girl)
Got me bracin through ur love (and i)
Ive fallen for u I (cant lie)
I just wanna be with u
And yes she got me there I said it
Somebody call the paramedics tell them to hurry up and come through.

Cause I cant breathe when you talk to me,
I Cant breathe when your touching me
I Suffocate when your away from me
So much love you take from me
Im going out of my mind

I cant breathe when you talk to me,
I Cant breathe when your touching me
I Suffocate when your away from me
So much love you take from me
Im going out of my mind

J. 2nd verse:

Yes yes baby you know ill be whateva u want me to be
