Got a day timer that's all filled up
Meetings and appointments and important stuff
See your little phone ringin' off the wall
Aw, but that don't matter at all
Just waitin' on you to call

Any night, any day, anywhere, anyway
I'm savin' a place for you in this heart of mine
By way, anyhow, what's wrong with right now
I'm ready to make you mine, anytime

All we need is a chunk of time
Blanket on the ground and a bottle of wine
Watch the moon rise up and the sun set down
If you wanna watch the stars come out
Baby, give me a shout

Any night, any day, anywhere, anyway
I'm savin' a place for you in this heart of mine
By way, anyhow, what's wrong with right now
I'm ready to make you mine, anytime

Any night, any day, anywhere, anyway
I'm savin' a place for you in this heart of mine
By way, anyhow, what's wrong with right now
I'm ready to make you mine, anytime

Ya, I'm ready to make you mine, anytime
