Right from the start  
I knew I wanted you  
You pulled me in  
Into your web, it's true

I never want out  
As long as you're with me too  
I'd wait around  
As long as I knew

Are we almost there?  
Are we getting close?  
Are we getting near?  
It's not far to go

I need to know  
Are we almost there?  
Are we almost there?

Maybe tonight  
When you're alone with me  
You'll realize  
Some things are meant to be

Just close your eyes  
And put your hand in mine  
Maybe we'll find  
Our way this time

Are we almost there?  
Are we getting close?  
Are we getting near?  
It's not far to go

I need to know  
Are we almost there?  
Are we almost there?  
Are we almost there?
