"Beautiful Day"

The morning begins
In the right sort of way
Not a cloud and the sun shining bright
What a beautiful day
If the boss makes you call
Tell him I'll be okay
'Cause I don't give a damn anymore
What a beautiful day
I love you, baby
You think I'm crazy
But I've got more important things to do
It might be nothing
But it's my nothing
And nothing's better than to be with you
And if the clouds come around
So what if it rains anyhow
What a beautiful day
I love you, baby
You think I'm crazy
But I've got more important things to do
It might be nothing
But it's my nothing
And nothing's better than to be with you
And if the clouds come around
You know what I'll say
So what if it rains anyhow
What a beautiful day
What a beautiful day
What a beautiful day
