Here, with no hope in sight
We're on the edge of goodbye
I refuse to believe all the years disappeared in a day
We didn't make it this far to just walk away
Don't walk away
We're on the downside of love
Why can't you see that's all that's happened to us?
If we don't have it all, we've got enough
There's no reason for us to give up
'Cause we're just on the downside of love
Disappeared in a day
We didn't make it this far to just walk away
Don't walk away
We're on the downside of love
Why can't you see that's all that's happened to us?
If we don't have it all, we've got enough
There's no reason for us to give up
'Cause we're just on the downside of love
