Heartaches will find you every time
You slip on over that cheatin' line
Heartaches are faithful and love is blind
When I look at you, darling, is it true
Heartache, are you gonna be mine?
I hate the way that you make me feel
Each time you walk through that door
But when the hurting's gone, you come along
And I keep comin' back for more
Heartaches will find you every time you
Slip on over that cheatin' line
Heartaches are faithful and love is blind
When I look at you, darling, is it true
Heartache, are you gonna be mine?
Yeah
Tomorrow could be a brand new day
Without these tears that I cry
But through it all, they still seem to fall
No matter how hard I try
Heartaches will find you every time
You slip on over that cheatin' line
Heartaches are faithful and love is blind
When I look at you, darling, is it true
Heartache, are you gonna be mine?
When I look at you, darling, is it true
Heartache, are you gonna be mine?
