There was a time when everything was clear to me
My perfect little world was all I knew
But then you came along, now all my plans are gone
It's safe to say it's all because of you
Though my life's a mess, I must confess I'm liking it
And I never thought I'd be the type that would
It's all upside down, I can't turn it around
And it's all because of you, Olivia
Olivia, I'm so in love with you
Don't ever leave me, don't ever say we're through
To me, it's all so new, I've learned a thing or two
It's all because of you, Olivia
Now I've been blessed, I must confess I'm loving it
More than I had ever thought I would
My world was upside down and you turned it back
around
And I owe it all to you, Olivia
Olivia, I'm so in love with you
Don't ever leave me, don't ever say we're through
To me, it's all so new, I've learned a thing or two
It's all because of you, Olivia
To me, it's all brand new, I've learned a thing or two
It's all because of you, Olivia
