#### [VERSE 1]

I smile beside you, it's worth a while  
I love your style, it's been a while  
I've been writing my heart into a song  
I've been trying to get you right where you belong  
And that's in my arms  
With all the time in the world for us two  
Hearts mix in a swirl, yeah  
We got so much time, no alarm  
Stay here babe, you'll be safe from harm  
We're gonna float together on ocean tides  
Underneath the parted skies I'll be the private eye  
To our love, love in the blink of an eye  
Kick back and relax and hear the smooth sighs  
With no lie, I won't lie, no I never told no lie, right  
drake?  
Keep us together for our own sake,  
I wanna have you till the end of time  
So many girls, you the first in line.  
I can say it now,  
I can say it all I want that you're finally mine  
I can x4  
I can say it now  
It's time to be the best you've ever had  
Take a moment to add  
 $1+1 = \text{You and I}$   
You've got me going crazy seeing trippy like tie die  
On the clouds so high, flying on the sky

#### [CHORUS]

I'm on a plane, a plane of love  
I'm on a plane of love and  
I'm flying in the mist of the air of love  
Flying up above you and I  
Let's take a second to cherish this moment  
And let's touch the sky

#### [VERSE 2]

On a plane, crawling to my brain  
Searching for the files hidden inside our memory lanes  
Everyday's a new adventure, no day feels the same

You're making me go insane  
Keeping a smile on my face,  
While my heart's on a race  
To catch up to yours,  
I'm like the lion that roars so loud  
But you make me shy so the words just don't come out  
But I can say it now,  
I can say it all I want that you're finally mine  
I can x4  
I can say it now.  
It's time to be the best you've ever had  
Take a moment to add  
 $1+1 = \text{You and I}$   
You've got me going crazy seeing trippy like tie die  
On the clouds so high, flying on the sky

[CHORUS]

I'm on a plane, a plane of love  
I'm on a plane of love and  
I'm flying in the mist of the air of love  
Flying up above you and I  
Let's take a second to cherish this moment  
And let's touch the sky  
I'm on a plane of love x4
