The sky is blue - The white clouds so slow  
Icy fields - Mountains full of snow  
Wolfs run free - Ravens fly high  
Trees reach upwards to touch the sky

In the middle of this land a great white hall  
From its inside comes a mystical call

The gates stand open wide  
As we walk thru side by side  
Winderland in the night

Icy walls that glimmer and shine  
An old big statue shines so divine  
An echo sounds crisp and oh, so free  
There before us shines a crystal sea

An old man stands on the other side  
In his hand there's the Scepter of Light

He raised his fist and prayed  
To the Norns holding our fate  
Winterland in the night

The only thing to see - Stars and moonlight  
Feeling pain as if we'd fought a fight  
Cold is the night when lay on the ground  
Looking beside us - Nobody around

Are we dead or still alive?  
In our minds thoughts pierce us sharp as a knife

We walked thru ice and snow  
Was it a dream? Something no one knows...  
Winterland in the night  
In the Night
