I heard you like to roll  
So come and get it yo  
I heard you like to toll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
Don't look inside my sole

I heard you like to roll  
So come and get it yo  
I heard you like to roll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
But I don't want no more

I'm going to be okay

### Verse 1

I heard their was a secret drug  
Take a little bit and you fall in love  
It went like this: the fourth the fifth  
Had a minor fall so I took a major hit  
Hey lick lips chew those chicklets  
Hit this a line of this business  
Hot and sizzling cold and shivering  
(I'm going to be ok)  
I'm not an addict I just got to have it  
Bad attitude with a real bad habit  
Caffeine fiend nicotine teen  
Look so bless with my ciggy on the scene  
Hey fiend, what's your cost?  
You light the flame here comes the moth  
Boss let me get my fix  
Not a kid no more but I still eat my tricks

### Pre Chorus

I don't need need your help no I don't x4

#### Chorus

I heard you like to roll  
So come and get it yo  
I heard you like to roll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
Don't look inside my sole

I heard you like to roll  
So come and get it yo  
I heard you like to roll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
But I don't want no more

#### Verse 2

Junky see Junky do  
You don't know what the fuck I've been through  
Come take a dive in the big boy pool  
When the water runs dry so will you  
Heads down thumbs up  
Lets play get fucked up  
Take another taste if you want to keep pace  
Don't turn back now it's way to late  
Jaw goes saw saw start to bad trip  
Self control don't really have it  
Sniff in a jiff and I'm back to manic  
Never in my life would I say I planned this  
Get your hands in all night dancing  
So dependent I can't even stand it  
Out of body and out of touch  
These head rushes are getting to much

#### Pre Chorus

I don't need need your help no I don't x2

#### Bridge

Everybody's smiling everybody hot  
Goodie goodie goodie goodie goodie goodie  
Bass Drop

Body dead feet can't move  
But I still got to grove  
Aunty M take me away  
Down the yellow brick road just for one day  
That's my tune this my song  
Bad bitches on the platform  
I lost my keys I lost my phone  
How the fuck am I getting home

I heard you like to roll  
So come and get it yo  
I heard you like to roll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
Don't look inside my sole

Chorus

I heard you like to roll  
So come and get it yo  
I heard you like to roll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
Don't look inside my soul

I heard you like to roll  
So come and get it yo  
I heard you like to roll  
You are beautiful  
I heard you like to roll  
So I'm not alone  
I heard you like to roll  
But I don't want no more
