Verse 1

Morning late, no foamo, cinnamon
Bitches they come but they square like Tienanmen
The Benjamins, I rock the top button
Combat boots like I'm fuckin up something
Reebok pumps like I'm dunkin on something
Stiletto pumps like nah nah nah nah nothing

Chorus

I don't really care if you skip that track
Everywhere else they gunna bump that back
And a matter a fact you ain't seen me put it down like
So you don't like my flow
I don't dream with the rest of ya'll
Smashing jack, smoking dro
On my five speed in the plateau

Verse 2

Sally sells seashells by the seashore
Now she selling rock over to the crack ho
Mama took her key she don't want her no more
Took the picture out the locket now her head to the floor
But yo, Sally we got you
Took you under our wings when god he forgot to
And taught you to do better for yourself
Don't aid the destruction of those that need your help
So she felt she could take a different route
Wrote a CV and printed them out
Took my five speed and rode em all about
Now she down at Wendy's combing weaves out
You ain't seen her in a while
Said she back with her moms everybody all smiles
You can catch her in the teau sea shells and sandles
Riding on my bars with lyrics you can't handle

Chorus

I don't really care if you skip that track
Everywhere else they gunna bump that back
And a matter a fact you ain't seen me put it down like
So you don't like my flow
I don't dream with the rest of ya'll
Smashing jack, smoking dro
On my five speed in the plateau

Bridge

In the plateau
Got five speeds but I want five more
Smoke that jay to open that door
Queens of the jungle lioness roar
I got these feelings baby
They do me good
They help me find perspective see like I should
I got this love that'll take you there
So when they come for you honey and you feel like
running
No need to be scared

Chorus

I don't really care if you skip that track
Everywhere else they gunna bump that back
And a matter a fact you ain't seen me put it down like
So you don't like my flow
I don't dream with the rest of ya'll
Smashing jack, smoking dro
On my five speed in the plateau
