If i hurded him would he do more than this to me? On the other hand all my life i've never taken half of what he's given he wanted to kill me and wanted to relax while i was hurt.

He didn't see anything but good.If i were to die it would be so much better than to grow through it.

I'm scared if he knows what he meant to me when he leaves.

In the end it doesn't matter to me and i'm not loosing a thing.

In the end i know that i'm the winner

The day will soon come and i'll forget and maybe if i was still with him i'd be living regretfully If it was my fault tell me what was my fault??what did i do?It's natural when you really love someone you trust them.There's no point of talking what's the use it's over.

i guess now he's living his life and it doen't matter to him what was in his past

In the long run i'm the winner..

in the long run i'm the winner the day will eventually come and i'll forget i'm not going to stop my life because the world is still full of good people
