"Magic"

Visit "[Magic](#)" on MotoLyrics.com

My life was predictable Uneventful and typical But it
changed in the blink of an eye All at once right out of
the blue I felt love and I found you I did not see it
comin' boy I swear the heart is quicker than the

I believe in magic, The kind that comes from up above
And I believe it's tragic The whole world can't feel this
kind of love Mysterious and free It appears when you
believe When you believe in magic

This is part of a greater plan So much more than a
sleight of hand There's no illusion here at all You made
a believer of me I was blind but now I see That what I
feel is really real Boy you've got me under love's spell
and

I believe in magic, The kind that comes from up above
And I believe it's tragic The whole world can't feel this
kind of love Mysterious and free It appears when you
believe When you believe in magic

Ain't no denying what love has done to me It's like
some kind of potion Tell me what else could it be? What
else could it be? Yeah

I believe in magic, The kind that comes from up above
And I believe it's tragic The whole world can't feel this
kind of love Mysterious and free It appears when you
believe When you believe

I believe in magic, The kind that comes from up above
And I believe it's tragic The whole world can't feel this
kind of love Mysterious and free It appears when you
believe When you believe in magic, I believe in magic
You believe in magic Ohhh
