It all started at the mall you were standing at the wall  
So I went to give my number couldn't wait to get your  
call  
I even promised you I would act and play nice romance  
your day's right  
We chat for late nights  
Weeks later while I'm kissing you  
You say what you're doing  
My hand going up on your leg I thought you knew and  
If you really want it baby show me so I wanted you from  
the beginning girl

No means no  
But I really wanna hit it girl  
No means no  
I can do it for a minute girl  
No means no  
I just want to get up in it girl  
No means no  
I can't believe you never did it girl

In your eyes I see where I want to be  
You were heaven sent here just for me  
As I close my eyes and I pray at night  
I can understand you gotta take your time

Now getting back to my plans to have you I hate to ask  
you  
You say relax dude  
Tell that's is just been a month well that's true  
Caress you on your neck and rub your back too  
Always got money on me to pass you  
Come to think about it girl I never seen your tattoo  
I thought you really love me when you told me so now  
its time for you to prove it girl

No means no  
But I really wanna hit it girl  
No means no  
I can do it for a minute girl  
No means no  
I just want to get up in it girl

No means no  
I can't believe you never did it girl  
No means no  
But I really wanna hit it girl  
No means no  
I can do it for a minute girl  
No means no  
I just want to get up in it girl  
No means no  
I can't believe you never did it girl

In your eyes I see where I want to be  
You were heaven sent here just for me  
As I close my eyes and I pray at night  
I can understand you gotta take your time

When I'm pursuing it why you try and ruin it  
I'm the guy you're moving everybody's doing it  
Now it's looking foul thinking that I'm crooked now  
I'm not every juvenile thought you were a woman now  
I told you the truth I'm older than you by three years  
and after this time girl you wanna see fears  
Pressure from you peers what you don't need though  
why just save it till your married girl?  
No means no  
But I really wanna hit it girl  
No means no  
I can do it for a minute girl  
No means no  
I just want to get up in it girl  
No means no  
I can't believe you never did it girl

No means no  
But I really wanna hit it girl  
No means no  
I can do it for a minute girl  
No means no  
I just want to get up in it girl  
No means no  
I can't believe you never did it girl

In your eyes I see where I want to be  
You were heaven sent here just for me  
As I close my eyes and I pray at night  
I can understand you gotta take your time
