Believe you're the only one  
Real followers through deception  
Know I won't be in unison  
Force another shallow connection  
Pass it all by think  
You're still at the center  
Let it all waste away as you sit and ignore  
Believe they never knew before you entered  
Like the others that came far before

#### CHORUS

Go play off another cliché  
Call it all your own  
I'll hold onto the things  
That you've never known

Find yourself held to common boundaries  
Down beyond the tortured rhythmic spell  
By distorted and disposable ideals  
Past the depths and perils of manmade hell  
You try to fill your voids with avoidance  
Then follow footsteps in manipulation  
Part of the chain is all you've ever been  
And question intensions of the misshapened  
[Imitation]

#### CHORUS

View truth through what you find sacred  
Contrast should not be feared  
If you want my submission  
You won't find it here

For that bright hope at last  
And that light time have past  
And my worldly rest hath gone  
With a sigh as it passed on

Let none of earth inherit  
That vision of my spirit  
Those thoughts I would control

As a spell upon his soul

CHORUS

View truth through what you find sacred  
Contrast should not be feared  
If you want my submission  
You won't find it here
